Figma, User Flows, Wireframing,
Interactive Prototyping, Design
Systems, UX Writing, AI-Assisted
Workflow, Agile Collaboration,
Cross-Functional Delivery.

DESIGN

Product Design, UX Research,
Interaction Design,
Design Thinking, Usability Testing,
Accessibility-Aware Design,
Information Architecture.

PROJECTS

ST HOLDING STOCK BROKERAGE

FITNESS AI MOBILE APP

HATCHYVERSE GAMING PLATFORM

EXPERIENCE

ST HOLDING STOCK BROKERAGE • NASSAU BAHAMAS

Jan 2026 - Aug 2026, REMOTE

I led the end-to-end redesign of a stock brokerage web app, from onboarding to the dashboard. Streamlining sign-up reduced onboarding drop-off by **28%**, and I worked with internal teams on customer retention. I also built and documented a scalable design system, giving the team a shared design language.

MOBILE APP BUILDERS LLC • TEXAS, UNITED STATE

July 2025 - August 2026, REMOTE

Partnered with product and engineering teams to take a mobile app from early concept and ambiguous idea into clear, testable user flows and shipped experiences. Simplified core business app screens, reducing friction and delivering a usable product now live on the App Store and Play Store.

PETEVERSE • LAGOS, NIGERIA

April 2025 - June 2025, REMOTE

Led product discovery and execution across multiple features by contributing to UX research, interaction design, and interface refinement. Collaborated with distributed teams to deliver scalable, user-centered solutions.

HATCHYVERSE • AUSTRALIA

June 2024 - Dec 2024, REMOTE

Designed intuitive interfaces for a Web3 gaming platform, balancing visual storytelling with usability. Led design for core web experiences including onboarding and airdrop flows, which reduced drop-off by **14%**.

VOLUNTEERING

PERSONAL

2023 - Present

DESIGN MENTOR

Mentored early-career designers, focusing on product thinking, portfolio structure, and practical career guidance.
